ABOUT US

FROM A SMALL WORKSHOP TO A NATIONAL PROJECT PARTNER

We started out modifying containers for local contractors who needed project offices that were quick to set up and fit for purpose. Today we serve construction and mining companies, government agencies, F&B businesses, and tourism developers across Indonesia.

We believe container buildings are more than a temporary solution. With the right design and the right materials, a container can become a comfortable office, an iconic café, or a memorable villa — built in weeks, not months.
